Seven Incumbent Pro-Jobs U.S. Congressional Members Endorsed by BIPAC Action Fund

America’s First Pro-Business Political Action Committee Supports Candidates

WASHINGTON DC—Today, the Business-Industry Political Action Committee’s Action Fund has announced its endorsement of seven Republican incumbent candidates who have a proven track record of supporting pro-jobs and economic growth policies. These candidates are seeking re-election in 2018 and are:

- IL6 - Peter Roskam
- IL13 - Rodney Davis
- IL14 - Randy Hultgren
- TX7 - John Culberson
- TX23 - Will Hurd
- TX32 - Pete Sessions
- VA10 - Barbara Comstock

"For over 50 years, BIPAC has made financial contributions to candidates for the U. S. House and Senate. These seven pro-business legislators have a proven record of supporting policies that lead to economic growth, innovation, and prosperity. Collectively they have a 97% average voting score in favor of issues important to BIPAC and our members,” said former U.S. Congressman Jim Gerlach (R-PA 6), who now serves as BIPAC’s President and CEO.

Earlier endorsements by the BIPAC Action Fund for the 2018 election cycle have been U.S. Senator Dean Heller (R-NV) and U.S. Congressman Daniel “Dan” Lipinski (D-IL 3).

“The BIPAC Action Fund will continue to support candidates from both parties during the primary and general elections who have been recommended by the business community of his/her state or district and who have been identified as more pro-business than his/her likely major opponent,” said BIPAC Senior Political Analyst Jim Ellis.

Seventy-six-point-five-percent of BIPAC Action Fund endorsed U.S. Senate and U.S. House candidates were successful in their 2016 campaigns. Eighty-percent were successful in 2014.

All candidates endorsed and supported by the BIPAC Action Fund have been recommended and vetted by a non-partisan, volunteer committee of BIPAC Board of Directors. The endorsements were also vetted by local and state business organizations who participated in the decision-making process. The endorsements will be communicated to hundreds of business organizations and associations.
